The Two Core Modules at a Glance

1. Live Course & Resort Status

DAILY MORNING ROUTINE

Fast 60-second morning update. Controls golf cart permissions, trolley rules, open course loops, summer vs. winter greens, and front desk hours.

📍 **Live on: Homepage Hero Bar, Booking Page & Clubhouse Digital Displays.**

2. News & Content Studio

ARTICLES & EVENTS

Publish club news, tournament recaps, culinary events, course maintenance notices, and promotions. Includes real-time preview, high-res photos, and auto-archiving.

📍 **Live on: Homepage News Grid, News Archive & Social Links.**

No technical skills required: Every setting uses visual toggle switches, preset dropdowns, and form fields. Changes sync instantly across all devices.

Morning Routine: Update Course Status in 60 Seconds

Every morning, golfers check our website first to see whether carts are allowed and which greens are in play. The status box is located at the very top of the admin page.

SECTION 1: LIVE RESORT & COURSE STATUS (HOMEPAGE & DISPLAYS) • LIVE SYNCHRONIZED

1. OPENING HOURS	2. GOLF CARTS	3. TROLLEYS	4. COURSE & GREENS
09:00 - 15:00 hrs	✓ ALLOWED	✓ ALLOWED	✓ OPEN
Reception & Phones	Note: stay on cart paths	Winter wheels recommended	18-Holes Regular

4-Step Quick Instructions:

1. **Verify Reception & Phone Hours**
   Enter today's service hours, e.g. `daily 09:00 - 15:00 hrs`. This dynamically updates guest guidance and phone assistant greetings.

2. **Set Golf Carts & Trolleys Rules**
   Select state: **Allowed (Green)**, **Restricted (Amber)**, or **Prohibited (Red)**.
   Optional note: e.g. *"Stay on cart paths only"* or *"Winter wheels required"*.

3. **Select Course Status & Greens (Use 1-Click Presets!)**
   Select whether the course is **Open**, **Partially Open**, or **Closed (Frost/Weather)**, and whether **Summer Greens** or **Winter Greens** are in play.
   Speed Tip: The *„Schnellvorlage wählen"* dropdown automatically configures common scenarios with a single click (e.g. *„18-Loch regulär geöffnet"* or *„Witterungsbedingt gesperrt"*).

4. **Save & Publish (The Golden Button)**
   Click **„Status jetzt speichern & veröffentlichen"** at the bottom of the card.
   A green confirmation toast appears instantly. The public website and clubhouse TV screens update without reloading.

Instant Live Synchronization
Saved statuses broadcast immediately to web visitors and active digital clubhouse boards. No server reboot or manual deployment required.

News Studio: Create, Format & Publish Articles

Publish engaging tournament reports, restaurant culinary specials, or course renovation updates with crisp photography and real-time live preview.

Key Input Fields:

1 Headline & Category

Catchy title (e.g. *„Thrilling Finish at the 2026 Club Championships"*).

Pick category: TURNIERE (TOURNAMENTS) AKTUELLES (NEWS) GASTRONOMIE PLATZ & RESORT

2 Teaser (Card Summary)

2 to 3 punchy sentences (100–160 chars). This text is shown directly on homepage cards to entice readers to click.

3 Hero Featured Image

Click **„Datei auswählen"** to upload a photo or pick from the Resort Image Library. The tool offers an automatic **16:9 aspect crop** for clean card appearance.

4 Text Formatting Toolbar

Format your story using quick toolbar buttons:

+ PARAGRAPH + SUBHEADING (H3) + QUOTE BOLD / ITALIC

📸 Embed Photos in Article Body

Click **„+ Foto in Text einfügen"**:

- Upload multiple event or action shots.
- Add a descriptive **caption** (e.g. *„Award ceremony Ladies Gross"*).
- Website visitors can tap photos to view in full-screen 4K lightbox!

MOBILE-OPTIMIZED AUTOMATICALLY

⏱ Time Scheduling & Expiry

Optionally set an **expiry date** (e.g. tournament signup deadline). Once expired, the article automatically moves to the archive.

👁 REAL-TIME LIVE PREVIEW

The right column dynamically displays both: 1. **Card Teaser Preview** (homepage grid) and 2. **Full Article View** (reader layout).

Publishing: Click **„Beitrag speichern & veröffentlichen"** to go live immediately. Choose status **„Entwurf" (Draft)** if work is still in progress.

Article Management, Multi-Device Sync & Checklist

Below the editor, the central article table allows editing, changing visibility status, deleting, and downloading safety backups.

EDIT ARTICLE

Click the **blue pencil icon** to load the full post back into the editor for corrections.

1-CLICK STATUS

Toggle between **Published (Green)**, **Draft (Amber)**, and **Archived (Gold)** directly in the table.

DELETE ARTICLE

Click the red trash bin. A confirmation modal prevents accidental deletions.

Multi-Device Cloud Sync

Whether working at the front desk or on a laptop in the office, the green sync status confirms all workstations are in harmony.

1-Click Backup Export

Click **„JSON-Backup herunterladen“** to export an offline archive file of all articles and images to your local drive.

Pre-Publishing Quality Checklist

- ✓ **Engaging Headline:** Clear, informative, and typo-free.
- ✓ **Correct Category:** Tournaments, News, or Gastronomy.
- ✓ **Short Teaser:** Max. 2–3 sentences for card view.
- ✓ **Sharp Hero Image:** Landscape format (16:9).
- ✓ **Structured Text:** Use subheadings & paragraphs.
- ✓ **Live Preview Checked:** Harmonious visual appeal.
